

B.R. Stylers – INDUBSTRIA [2009]

LET THEM SHINE [ M.Gazziola, P.Baldini, G.Ennas ]

There's no other place beyond this land  
Our feet are walking on the street of Father's land  
There's no place as beautiful as the land  
In wich you can recognize, the roots of your past

Let the music play Jah will tell you the way  
In front of you, you can see the brightful days  
Babylon wanna stop your voices  
But the wiser light is shining  
You can hear the ancient melody  
Lyrics from the beginning of your history

From the north the grey the green of our land  
We walk on these streets proud to be part of this land  
No matter where you come from  
If you give thanks for the beauty Jah has built around you  
Come closed to the mountains  
Where mother nature designes and spreads  
The colours of Jah creation, oh Jah creation

So go run away stay away from the Babylon system  
Pray pray you have to pray just to say  
Free the honest men from the cage  
Jah let them shine again, let them shine again

Music is a gift music conquers  
Forget where you come from  
Don't sell your soul  
Don't do it for the wicked world  
Please preserve the pureness of your love  
Look at the children eyes , their light  
That's tonight Jah vibes.

FROM THE GROUND [ M.Gazziola, P.Baldini, G.Ennas ]

Learn from the earth  
What's the rule to respect your land  
Just a little fire is enough  
To burn millions of woods

Don't use human rules to respect  
The land of the Father  
Try to live with the foundations  
You got from your Mother  
Your respect is needed to the earth's safety  
Another day can change, this misery.  
No human rules can save the land of Father  
You must live with the foundations  
You got from your mother  
Mother earth chants the rules for her own safety  
Another can change.. This misery

Learn from the earth  
What's the rule to respect your land  
Just a little fire is enough  
To burn million of woods

What you sow will let your children be alive  
From the ground we take what we need to survive

It's not fair that just one man  
Got more then whole nations ...

AS ONE [ M.Gazziola, P.Baldini, G.Ennas ]

Men's mind first is inspired by the sound  
but I've to always know  
what the lyrics that I chant are about  
my words are inside what I've been and what I will be  
If I don't find myself inside my past and my beliefs  
I can't write I can't write I'm just able to deny  
deny my faith I cannot apologize - deny my faith  
Men's mind first is inspired by the sound  
But I've to always know  
What the lyrics that I chant are about  
My words are inside my words are inside  
My words are inside inside my past and my beliefs

Trust all will get over  
Take time for your life and you lover  
Be glad for every chant you can sing aware of love  
As one - live the earth stay closer  
Trust all will get over  
Take time for your life and you lover  
Be glad for every chant you can sing aware of love  
As one - live the earth stay closer

There was a land ancient and wild  
Only one place for the black and the white  
The truth of the wise made people free and united  
Redistribute nature resources  
Give water to the thirsty  
Land ancient and wild...

Trust all will get over  
Take time for your life and you lover  
Be glad for every chant you can sing aware of love  
As one - live the earth stay closer  
Once or twice  
Doesn't matter try to improve  
Give thanks draw the line of Jah rule  
Don't deny your faith you cannot apologize  
Celebrate your past  
Like the present that's what you are

As one live as one without forgetting the past  
The mind the mind is inspired by the chant  
Find a flower a rain drop gives it new life  
The singing birds are music and let me shine  
The ancient teach us pureness here & beyond

We live in Jah glory as witnesses of Jah glory

There was a land ancient and wild  
Only one place for the black and the white  
The truth of the wise made people free and united  
Redistribute nature resources  
Give water to the thirsty  
Land ancient and wild...

Trust all will get over  
Take time for your life and you lover  
Be glad for every chant you can sing aware of love  
As one - live the earth stay closer  
Once or twice  
Doesn't matter try to improve  
Give thanks draw the line of Jah rule  
Give thanks draw the line of Jah rule....

NO LIAR [ M. Gazziola, P.Baldini, G.Ennas ]

No richness can replace your dignity  
I say no liar can erase your faith  
So now be wiser  
No richness can replace your dignity  
I say no liar can erase your faith  
Me I know Jah  
His rules touch my soul  
Me I know Jah  
I don't pretend to be alone

Don't look behind  
Walk your way  
You can choose it  
Fragility pushes me down  
Don't accuse me  
Don't give me another direction  
You can confuse me  
Neutralize my enemy  
Or tell me who it is

Enjoy each step  
Don't be in a hurry  
Wait your turn – ya  
Do the best you can  
Just try to improve  
Future depends on your talent that's the rule  
You'll understand really soon.

Time is running fast living here is a struggle  
Find another place to set you free from these troubles  
No liar no liar can erase your faith  
No matter who you are you know  
Babylon is a cage  
No liar no liar can erase your faith  
No matter who you are you know  
Babylon is a cage

WRONG PREACHERS [ M. Gazzola, P.Baldini, G.Ennas ]

The truth, the truth is in the eyes  
Me I, me I no see lies  
A fire, a fire burns inside  
Is it your pureness? Please don't lie !  
It's time for compensation  
Let me find the right combination  
I need an explanation  
Rising time is my salvation

Stop now – think now  
Get hold of your promises  
Don't waste any word  
Keep hold of your honesty

If Dub is a must.. Who can I trust?!  
Me wanna go a straight  
Sometimes I can't find the way  
Confusion in my head – I don't understand  
Why rising sun don't you give me some help?  
The truth is on the bottom of things  
The truth is on the bottom of things  
The truth is on the bottom of things  
Get to the bottom of things  
The truth will make me think.

I choose my teachers  
Me I no wanna be a victim of ignorance and wrong preachers  
The truth opens the eyes  
I'm just waiting for this rising time  
So let me find the consciousness  
I've got inside..  
You know the truth opens the eyes  
I'm just waiting for this rising time  
So let me find the consciousness  
I've got inside  
You know the truth opens the eyes  
I'm just waiting for this rising time  
So let me find the consciousness  
I've got inside..

COME BACK TO THE TRUTH [ M.Gazziola, P.Baldini, G.Ennas ]

I don't need a place to pray my God  
Before judging me understand my words  
Read again The Holy Pages  
You talk about love and charity  
But you don't even wanna listen to me

Maybe you don't know  
The more you throw me out  
The more I grow away from you  
Take a look around  
There is something wrong  
If you wanna save this faith  
Let me tell you go away  
Your way of thinking is 100 years old  
Remember that I'm not afraid of you anymore  
Every honest man knows what God wants from him  
That's the moment to come back to the beginning  
Don't you realize  
The world is changed  
How come stay here  
I don't understand it  
You really know the God you talk about everyday  
Read again the Holy Rules there's no other way  
Come back to the Truth from today

Listen to me  
You can't refuse my chant  
Don't judge me  
Before knowing the meaning of my prayer  
Listen to me  
You can't refuse my chant  
Don't judge me  
Please come back to the truth from today ....

Come back to the Truth from today  
Every honest man knows the meaning inside his praying yeah  
Everyday you say " Jesus is the son of the father  
We have to follow his way "  
But let me know can you explain  
How come do you live in such a richful way  
The hypocrisy is always the same  
Your hand's stained of blood  
But your rings now still shine on despair  
Come back to the Truth from today  
Look around and find out

The answer to save your faith  
Come back to the Truth from today.

HEMP [ M.Gazziola, P.Baldini, G.Ennas ]

Like a tree's roots clinging to the earth  
I feel I belong to you  
I feel into you and I've no fear when I'm with you  
I feel I belong to you  
You belong to mother nature  
You've got her colours and smells  
You are green and hemp  
Delicate and strong  
It's so easy to know what is the power of love  
Is a dream, is a sound the energy that moves the universe  
The only thing that I know  
Is that I feel in the air that I breath  
In the images I see all around me  
In the music that's running after me  
In the morning sun  
In our mountain's light  
So let me tell you again

The rain is over don't you see the sun  
One day you told that " love will recall love"  
Don't go!  
Love is the rightful way, the truth, the best, the only salvation  
So rise, be wise, don't go  
Cling to the earth like a tree's roots

This city is not the same when you see me walking alone  
This life is not the same if we don't fight close and strong  
Nothing comes in our lives without a reason  
And you didn't come into my life to be just a single season..  
The only thing that I know  
Is that I feel you in the air that I breath  
In the images I see all around me  
In the music that's running after me  
In the morning sun  
In our mountain's light  
So let me tell you again..

The rain is over don't you see the sun  
One day you told that " love will recall love"  
Don't go!  
Love is the rightful way, the truth, the best, the only salvation  
So rise, be wise, don't go  
Cling to the earth like a tree's roots.

JAH PLAN Rusty Mix [ M.Gazziola, S.Boscolo, P.Baldini, G.Ennas ]

No compromise me tell you no compromise  
No compromise me tell you no compromise  
Me no want no more me no want no compromise  
Me no want no more me no want no compromise

You speak ya words calling me compromise  
Your cheap words leading me compromise  
You betta stop play 'ca ya game's over  
Don't fear to go straight as the morning rise

There's no other land beyond the promise land  
Jah Plan opens the eyes writes the rules  
The same for black and whites shoot down suffering and pain  
Blessing fire tonight!

Let me feel the vibe there's a fire closed inside Jah Plan  
It burns everyday and every night  
Cause the way to His land needs a guidance star  
Where's His light ? Don't you see ?!  
' Blessing fire tonight.

Trusting in my belief  
Faith to the beginning  
Dub wise respects my creed  
Jah plan is guiding' me
